NOTES TO TABLE A.

* These accounts belong to the class known as "indefinite," and therefore no balances can appear. The amounts expended are credited to the accounts at the close of the year.

† War, \$16,000. This is an apparent and not an actual overdraft. The amount of the appropriation was advanced to a disbursing-officer and repaid back to the Treasury, and again drawn out before it appeared as a credit upon the books from which these balances were taken.

‡ Interior Indian appropriations. These amounts were appropriated May 20, 1872, and placed to the credit of these appropriations June 24, 1872, and are merged in the balances of June 30, 1872, or have been drawn against, not being limited by law to fiscal years.

§ This amount was erroneously carried to the surplus fund. A re-appropriation has been requested to balance the account.

|| Navy pension fund. \$65,100 were transferred by appropriation warrant under act of Congress to an account for support of the naval asylum at Philadelphia, thereby reducing the available balance by this amount.

B.—Statement of balances of appropriations July 1, 1872, made for the service of the fiscal year ended June 30, 1871, and prior years, limited by the terms of the 5th section of the act of July 12, 1870, (16 Stat., 251,) to the service of the year for which the appropriations were made, together with a statement of the amounts expended during the first quarter of the current fiscal year, and the amounts which may be carried to the surplus fund.

Appropriations.	Balances unexpended June 30, 1872.	Net expenditures dur- ing quarter ended September 30, 1872.	Excess of repayments during the quarter ended September 30, 1872.	Amounts which may be carried to the surplus fund.
